HALFLYTELY PREP

Special instructions: _____

One (1) WEEK before your exam:

- No popcorn, flax seed, or Olestra (fat substitute found in foods like potato chips) 1 week prior to your procedure.
- NO IRON within 3 days of your procedure. Example: no Multi-vitamin or iron
- If you tend to be constipated, take two tablespoons of Milk of Magnesia two days prior to your procedure.

One (1) DAY before your exam: **Date/Time:** _____

- **No solid foods are allowed!** You may have only clear liquids.
- Drink 8 oz of liquid every 1 to 2 hours when on the clear liquid diet while awake. This will help maintain hydration. If you have **heart failure, cirrhosis, or kidney failure and you are on dialysis**, drink only 4 oz. of liquid every 2 hours when awake while on clear liquid diet the day before the procedure.

•

Prep instructions:

- **12:00 Noon** Take two (2) Bisacodyl (Ducolax) tablets with water.
Do not chew or crush the tablets.
Do not take Bisacodyl (Ducolax) tablets within 1 hour of taking an antacid.
- **1:00 P.M.** Mix the HalfLyteLy by adding lukewarm drinking water to top of line on the bottle.
Cap the bottle and shake to dissolve the powder.
Place in the refrigerator. Must use within 48 hours of mixing.
- After the first bowel movement occurs (usually 1-6 hours) begin to drink the HalfLyteLy solution.
- **If no bowel movements occurs, begin drinking HalfLyteLy at 6pm.**
- Drink one (1) 8 oz. glass every 15 minutes (about 8 glasses).
- Be sure to drink ALL the solution. If nausea, hold for 1 hour then restart.
- Watery bowel movements should begin in approximately 1 hour.

Day of your exam:

Date/Time: _____

- Your medications, other than those that have been specifically held by your doctor, can be taken in the morning with a small sip of water.
- Please use the Center for Digestive Health Entrance and Registration Desk on arrival.
- You must be accompanied by a driver who remains during the procedure.
- Do not eat or drink anything **after 12:01AM** the day OF your procedure except for what is approved in the following instructions.

In addition, if you are having an afternoon procedure:

A **clear liquid** breakfast is **REQUIRED** by _____ on _____ then nothing by mouth. Remember, it is important you do not eat or drink anything at least **six hours prior** to your procedure otherwise it will need to be rescheduled.

Common questions:

- Bowel movements often occur about one hour after the first glass. They will continue periodically for approximately 1-2 hours after you finish drinking the last glass.
- A feeling of bloating or nausea may occur due to the large volume of liquid; this is usually temporary and will disappear once bowel movements begin.
- A small amount of Vaseline applied to the rectal area may help relieve any discomfort
- For morning procedures, on the day of the procedure if you are thirsty, drink only a few ounces of water **up to six hours prior** to your procedure time.
- Color of the stool should be yellow or clear and liquid. (Mountain Dew color is common.)
